

Revolutionizing Workforce Management with ShiftWise Flex™

ShiftWise Flex is the premier user-friendly VMS platform, exclusively designed for healthcare organizations to manage their unique total talent needs, clinical and non-clinical, across healthcare settings.

"ShiftWise Flex has emerged as a frontrunner in the healthcare VMS space with significant enhancements, including a UI overhaul as well as multiple functional advances. Its (...) integration with the AMN Passport mobile application, and improved reporting functionalities, coupled with AMN Healthcare's MSP expertise and complementary suite of technologies, position ShiftWise Flex as a Major Contender in both Everest Group's global and North America VMS PEAK Matrix® Assessment 2024."

- Krishna Charan, Vice President, Everest Group.

User-Centric Design

ShiftWise Flex has an intuitive, user-friendly interface that enables users to seamlessly navigate and perform tasks with clear navigation and easy-to-find functions. Additionally, the platform follows online accessibility standards, delivering an effortless experience for all users.

Functionality

ShiftWise Flex dashboards and reports are fully customizable to efficiently fit unique client needs with the most current data. Fully integrated scheduling, credentialing, compliance tracking, and reporting features ensure a seamless user experience.

Efficiency and Performance

ShiftWise Flex delivers streamlined, lag-free navigation, ensuring that users can complete their tasks without interruption. Task automation for notifications, reminders, and report generation helps save time and reduce manual processes.

Reliability and Security

SOC Type 2 Certified Ensures the highest level of data security and protection in the industry.

Support and Training

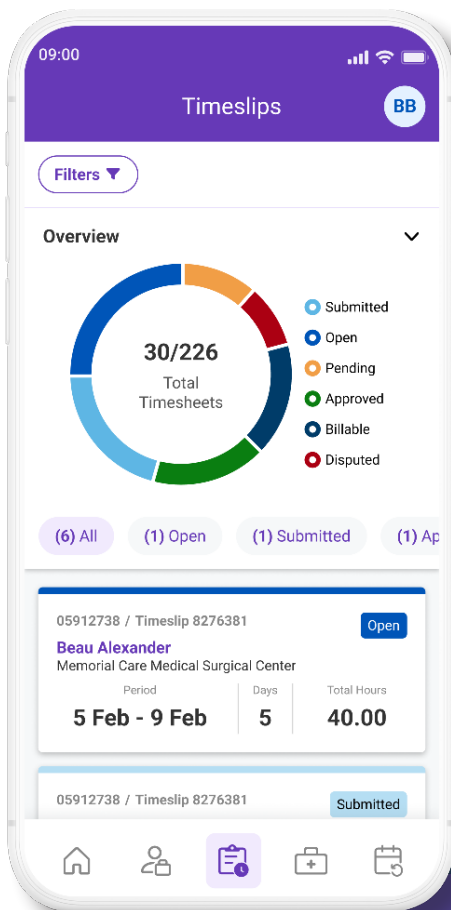

Hands-on training from the ShiftWise team ensures effective onboarding to help users understand and utilize the system effectively. The ShiftWise team provides additional multi-channel customer support to assist users with any issues they encounter during use.

Adaptability

ShiftWise Flex is scalable to meet the evolving needs of healthcare organizations, with the right solutions for every step of the workforce management journey. Our multi-point integrated platform connects with clients' existing systems, such as HRIS, to automate and speed up their internal processes—including work order entry, automation of clinician onboarding and off boarding, timekeeping, and invoicing.

Mobile Accessibility

As an extension of the desktop platform, the mobile app provides easy, on-the-go access, enabling seamless patient care and facility operations. With a comprehensive range of features, this app empowers managers with effortless access to core functionalities essential for delivering unparalleled support.

Central to ShiftWise Flex is its detailed dashboard, offering critical insights into operational nuances, ensuring proactive management to keep facilities running smoothly. The ShiftWise Flex Manager mobile app enables users to view submitted staff, accept staff to fill orders promptly, and efficiently handle shift management tasks. With full control at their fingertips, users can seamlessly:

- Accept staff to fill orders
- Create and manage shifts
- Monitor current assignments
- Submit new assignments
- Manage staff compliance

ShiftWise Flex revolutionizes workforce management, providing a comprehensive suite of tools to streamline operations, enhance patient care, and optimize facility efficiency. Unlock a unified and personalized experience with ShiftWise Flex—the solution that puts you in control.
